Address: Teterower Ring 63, Apt No:84, 12619, Berlin, Germany (Berlin-Home) |

Address: #518, Sri Guru Nivas, Hoskerekhalli Layout, Giri Nagar 2nd Phase, BSK 3rd satge, Bengaluru, 560085, Bengaluru, India (Home)

ABOUT ME

Business/Data Analyst with 5+ years in insurance operations, specialising in translating large volumes of operational data into forecasts, KPI reports, and process improvements — the same analytical foundation central to modern logistics and transportation management. Experienced in demand and loss forecasting, variance analysis, cross-functional coordination and end-to-end process optimisation using data tools such as Power BI, Tableau and SQL. Seeking to build on this operational analytics background with the MSc in International Logistics and Transportation Management at UE, to move into supply chain planning, network optimisation, and logistics analytics roles within the European market. Currently based in Berlin on a valid work visa and learning German (A1).

STRENGTHS RELEVANT TO LOGISTICS & TRANSPORTATION MANAGEMENT

Forecasting & Demand Planning and Process & Network Optimisation

Built predictive/forecasting models (LPRA) projecting future losses to inform reserve and resource allocation — directly transferable to demand forecasting and inventory/capacity planning. Led Kaizen-based process improvement initiatives and SOP standardisation, improving turnaround times and operational consistency across multi-site teams.

Data-Driven Decision Making and KPI & SLA Management

Designed dashboards and variance/stratification reports (Power BI, Tableau, Excel, SQL) used by leadership for operational and strategic decisions. And also tracked performance metrics across 550+ client accounts, ensuring adherence to SLA/TAT benchmarks — comparable to service-level management in freight and logistics operations.

Stakeholder & Vendor Coordination and Quality & Compliance

Managed relationships across cross-functional and client teams, gathering requirements and aligning operational workflows to business needs. Applied quality audits and regulatory compliance checks, relevant to logistics documentation, customs, and risk management contexts.

WORK EXPERIENCE

SENIOR PROCESS ANALYST - LOSS RUNS OPERATIONS, US COMMERCIAL INSURANCE – GALLAGHER SERVICE CENTER LLP –
19/02/2021 – 25/07/2025 – BENGALURU, INDIA

- Analysed five years of historical claims and operational data to build reports supporting forecasting, strategic planning, and business decision-making.
- Performed quantitative analysis on claims and payroll data to calculate Experience Modification (XMOD) values, delivering variance analysis and stakeholder presentations.
- Conducted predictive/forecasting analysis (LPRA) to project future losses and inform resource/reserve allocation decisions.
- Designed and delivered custom analytical reports — including large-loss summaries and stratification reports — tailored to diverse operational requirements.
- Gathered requirements and translated business needs into process documentation and training materials, onboarding 15+ new-hire batches.
- Tracked KPIs and performance metrics across 550+ client accounts, ensuring SLA/TAT adherence, and drove Kaizen-based process improvement initiatives.

SENIOR OPERATIONS ANALYST - OPERATIONS, US PROPERTY & CASUALTY INSURANCE – COGNISURE SOLUTIONS PVT. LTD –
28/07/2025 – 20/02/2026 – BENGALURU, INDIA

- Analysed operational and claims data to identify patterns, risks, and process improvement opportunities, translating

- findings into actionable business recommendations.
- Partnered with cross-functional teams to gather requirements, optimise reporting structures, and streamline workflows for client deliverables.
 - Built and maintained data validation processes, leveraging AI-driven platforms to convert unstructured operational data into structured, analysis-ready datasets.
 - Applied quality control measures and data audits to improve reporting accuracy and operational efficiency.
 - Managed end-to-end document processing — loss runs, policies, and submissions — using AI/ML-driven data extraction to generate risk and operational insights.

PROJECTS

XMOD Pool Management

Managed 10 annual pools across 550+ client accounts, delivering variance reports, comparisons, and forecasting analyses — analogous to portfolio/network-level planning in logistics.

Artex Captive Reports

Handled 12 accounts annually with 860+ members, streamlining processes for cost control and exposure management.

Process Optimisation Initiative

Implemented 10+ Kaizen ideas and standardised workflows via SOP development, improving turnaround times and consistency.

EDUCATION AND TRAINING

25/05/2013 – 18/05/2015 Kolar, India
PRE-UNIVERSITY COURSE (PUC II) - COMMERCE Mahila Samaja PU College, Kolar, Karnataka, India.

Level in EQF EQF level 4

05/06/2015 – 25/06/2018 Bengaluru, India
BACHELOR OF COMMERCE (B.COM) Bangalore University, India

Level in EQF EQF level 6

25/09/2018 – 05/10/2020 Bengaluru, India
MASTER OF BUSINESS ADMINISTRATION (MBA) Visvesvaraya Technological University (VTU), Belagavi, India

Level in EQF EQF level 7

SKILLS

Microsoft Office | Microsoft Word | Microsoft Excel | Google Drive | Microsoft Powerpoint | Google Docs | Data Analytics & Visualisation: Advanced Excel, Power BI, Tableau, SQL (MySQL Basics) | Reporting: MIS Dashboard Creation, Variance Analysis, Forecasting Models, Process Automation | Financial Software: Tally ERP 9.0 | Organizational and planning skills

Training and Certifications

Certified Trainer (Trainer Certification Workshop) | Certified Data Analyst / Business Analyst | Lean Six Sigma – White Belt | Problem Solving & Decision Making | Effective Communication at Workplace | National Skill Development Training

LANGUAGE SKILLS

Mother tongue(s): **KANNADA**
Other language(s):
